

## The Puppet Master Index 1946 – 2024

### How the index works

The references are shown thus: 15/9/4 which means volume 15, issue 9, and page 4.

A slight complication is that there are two series. The first series only has four volumes (26 issues), for identification these are shown beginning with a slash. For example, /2/3/4 indicates volume 2, issue 3, and page 4 of the first series; whereas 2/3/4 relates to a similar location in the current series.

Names of persons in **bold** type indicate that they are authors of some, or all, of the items listed under their names, which may include reviews of their performances and articles about them.

A few ambiguities in the numbering of the early issues can be resolved using the authenticated list below and by referring to the front cover illustrations.
